Main features:

### Features

- MATERIAL: Metal
- SHOWER TAPS-HANDSHOWER FLOW: 10 L/min
- WARRANTY DURATION (YEARS): 5

### Consumer benefits

- AN EFFICIENT INSTALLATION FOR EVERYDAY USE: Its Ø20 cm head shower is ideal for a moment of relaxation or for rinsing your hair efficiently. The shower is also equipped with a multi-jet hand shower, which is more practical for daily showers without shampoo. A handle which regulates both temperature and flow. An activation button to switch from the head shower to the hand shower.
- EXTREMELY RESISTANT: Metal façade for a high quality finish and durability of the installation In-wall housing with anti-leak design for a guaranteed watertightness over time Drainage system to avoid water condensation in the in-wall housing.

### Installation benefits

- ALL-IN-ONE KIT: It is possible to create a built-in shower without forgetting anything! This all-in-1 package provides you with everything required to install a functional concealed shower in a single package. Contents of the pack: Mechanical façade with adjustment handles, Ø200 mm head shower and wall connection arm, Ø100 mm hand shower with 5 jets, anti-twist hose, hand shower holder, outlet elbow, modulo flush-mounted box, step-by-step installation guide.
- ANY DOUBTS ABOUT YOUR INSTALLATION? An installation tutorial is available on the Jacob Delafon website
- AN EASY TO INSTALL FLUSH-MOUNTED BOX: Integrated spirit level for a perfectly smooth installation. "Dents" to mark the cutting area. Designed to suit different types of installation: against a wall, away from the wall, in drywall, with cut-outs in a solid wall. Bolts kept in the body of the box so that they are not lost during installation or when the box is unpacked. Guide system inside the Modulo box for easier and safer valve assembly. Installation possible between 80 mm and 110 mm, but adjustment kits are available: for deeper recesses - between 110 and 150 mm including tiles - order reference: 98701D-NF (shims of 20 mm or 40 mm) for limited depth installation - between 67 and 80 mm finished wall thickness including tiles - order reference: E98700-CP (possibility to insert a heavier façade to cover the valve)
